Grants Program Management & Administration Services

Risk Management | Energy & Sustainability | Compliance | Business Process | IT Effectiveness | HR Talent Management

Regardless of whether you're a seasoned professional in a large institution, a funding organization, or a part time volunteer at a small grassroots agency, the job of grants management involves a difficult balancing act; ensuring that program staff have the resources and latitude to accomplish mission objectives while also responding to the challenges of improving processes and maintaining compliance.

ProSidian Consulting offers outsourced Grants Program Management & Administration Services infrastructure as well as skilled professionals to support writing grants, administration, reporting, compliance and operations. Our comprehensive Grants Program Management Services clients meet mission-critical requirements in the most efficient and cost-effective manner possible.

End-to-End Grants Program Management & Administration Services

Grants Program Management & Administration Services

Today's grantors and grantees are challenged with efficiently and effectively administering and monitoring their grants, while at the same time meeting today's heightened expectations for better accountability and transparency of government grants programs and taxpayer dollars. At the same time, the operating environment keeps changing with increasing requirements imposed by transparency, oversight, tight budgets, resource constraints, and ever-changing laws and regulation.

ProSidian Consulting's Grants Program Management & Administration Services are structured with end-to-end business processes and solutions for a structured approach aligned to business drivers for improving management & administration while maintaining compliance. *We Help Clients Improve Management & Administration*. Grants Program Stakeholders face two key challenges of limited resources and the balancing act of maintaining compliance while improving performance.

Demands for increased transparency and open accountability come with added scrutiny and the need to make sure that each dollar is spent and accounted for properly and each requirement is met. The challenge of compliance and accountability places Grant-making agencies, grant recipients, and other stakeholders under the microscope when it comes to fraud, waste, and abuse of public dollars.
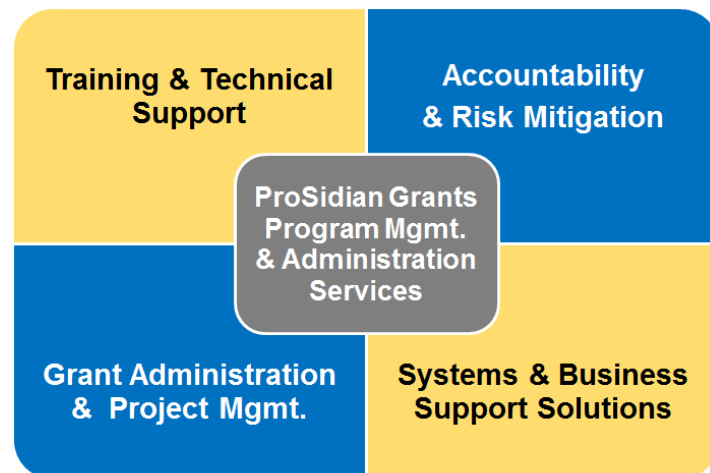

With growing public attention and transparency requirements such as the Federal Funding Accountability and Transparency Act of 2006, the American Recovery and Reinvestment Act of 2009, and the Open Government Directive of 2009 and 2010—forward-looking Grant Stakeholders can turn to ProSidian Consulting to help them move forward through an integrated requirements of Grants Program Management & Administration. We have the capabilities to fulfill strategic, operational, accountability and risk, and technology needs. ProSidian Consulting can assist with all or any component of the grants lifecycle—from strategy to closeout.

An Integrated Approach For End-To-End Grants Management Support

ProSidian Consulting's approach to grants management centers on high-level approaches that drive program success with structured process backed up by the right solutions for people, process and technology.

We provide grant stakeholders with hands-on support and advisory services for strategic program management and tactical support across the grants lifecycle. Systems & Business Support Solutions

Grants Program Management & Administration Services

Our Grants Program Management & Administration Consultants are multi-disciplinary professionals that provide responsive, personal client service with a breadth of expertise and resources for project engagements of any complexity. Our experienced Grants Consultants can guide clients through individual grant programs, institutional constraints as well as the procedural requirements of funding agencies.

We have established relationships with staff at a variety of agencies, and a track record of collaborating our clients to successfully secure project funding and provide administrative support whether revenue streams are from privately sponsored programs, public funds, earned income strategies or any combination of the three. Our clients are better able to focus scarce resources on programs to achieve mission objectives.

Accountability & Risk Mitigation

Our structured approach supports overall compliance and oversight and lowers risk. We help Grant Stakeholders focus on deliberate, integrated processes that measure program success, provide monitoring and compliance strategies, use audit and monitoring outcomes to inform change, and improve internal controls.

Through this approach, we can position Grant Stakeholders to make informed course adjustments and readily answer questions about your programs with verifiable information and a focus on achievement. Our consultants are able to design a structured interactive approach that manages the change while establishing a foundation for success and improved, consistent protocols, tools, in line with data-driven Accountability & Risk Mitigation.

Grant Administration & Project Mgmt.

We help implement strategic and operations plans or provide support for any or all parts of the grant management life cycle. ProSidian Consulting' provides tactical support and solutions for process improvement, program development, communications and stakeholder relations, training, and technical assistance.

In support of Grant Stakeholder Organizations, we help tap into process efficiency and, as a result enhance access to grant funding and processing capacity. Our Grant Administration & Project Management support helps clients either fund more grantees or achieve maximum funding of their mission objectives. Our focus is to help each client achieve key mission objectives.

Clients seek ProSidian Consulting to provide broad support to improve their overall operations including developing or improving standard operating procedures, developing monitoring plans, improving stakeholder relations, supporting audit tracking, improving their capabilities to review budgets and conduct cash analysis in timely ways, and more.

Systems & Business Support Solutions

Our IT Effectiveness solutions bring significant efficiencies and improved controls, while supporting and enhancing optimal processes. Using information technology to support your grant processing, we lower staff burdens and improve quality. Whether it is integrating data from disparate systems, defining requirements building applications, or implementing COTS solutions, our consultants and Grants Administration Professionals have the skills and track record to make Grant Stakeholders more successful.

Clients can turn to ProSidian Consulting's to build, maintain, and support Web-based, full life cycle grants management systems. Our Systems & Business Support Solutions allow clients to slash cycle times and application processing steps so the organization could refocus operating resources and measure performance more closely.

Training & Technical Support

We provide Training & Technical Support to Grant Stakeholder Organizations to design or align overall policy and operations strategy with the ability to promote, measure, and point to success toward public policy goals.
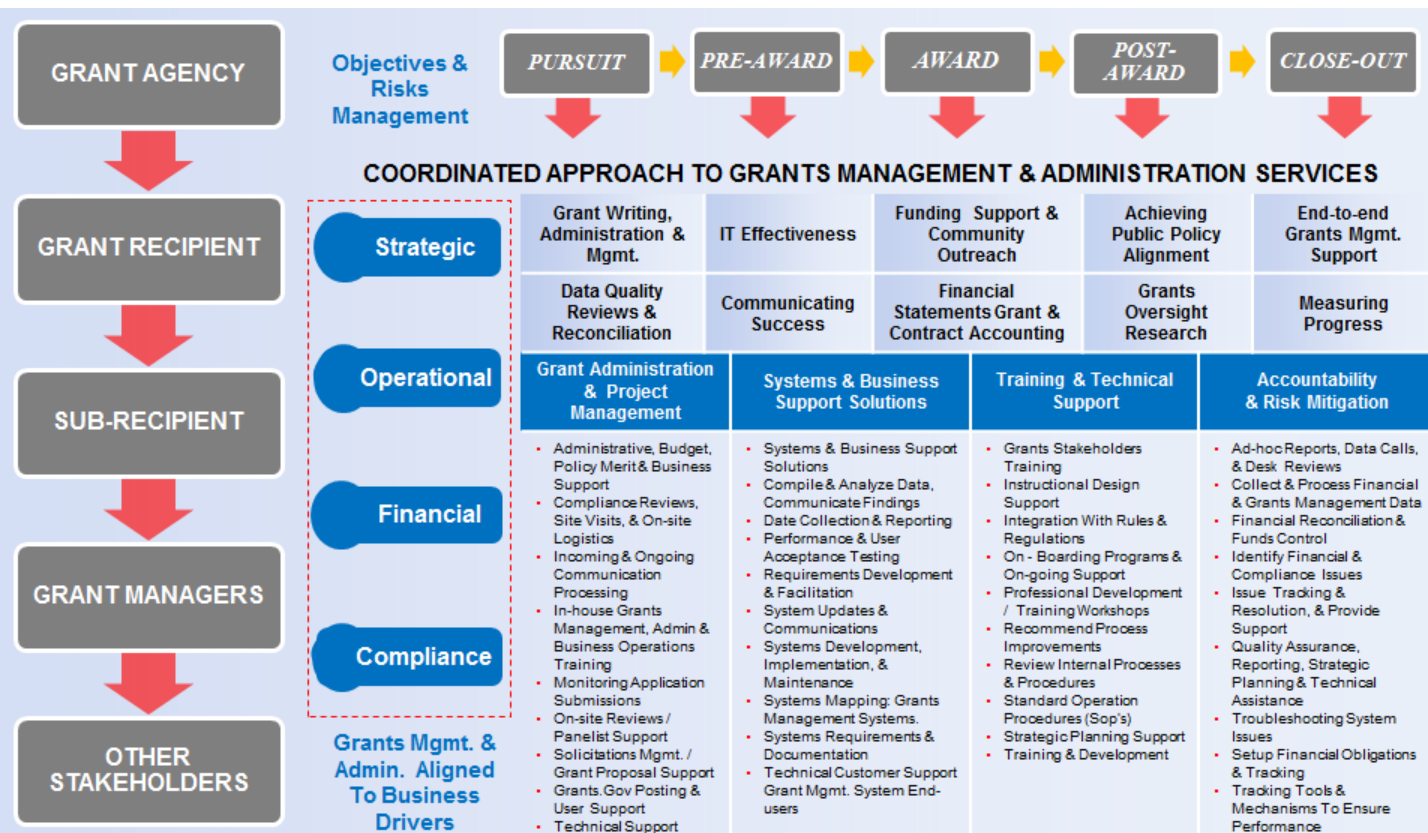

Clients can look to ProSidian to help them build a grants management capacity from the ground up. We help determine policy goals, build program capacity, and stand ready to support the ability to make informed decisions about which projects to fund and what grants to pursue.
