Learn more about our solution for Communication Training: *INVEST | EMPOWER | DELIVER*.

Training Category

Communications And Interpersonal Skills: Communication is vital in an organization, as are interpersonal skills. Are the two different from each other? 'Communication' can be understood in a broad sense, from a common greeting to a product brochure. 'Interpersonal skills', on the other hand, is the art of communicating a particular agenda within the organization to other employees. This kind of communication has important ramifications for both the communicator and the audience. ProSidian training enables participants to hone the art of effectively communicating with tact and diplomacy regardless of audience. Our training equips you with a communication asset for creating understanding, advantage, and managing peers, subordinates, and teams.

Expected Training Outcome

Through ProSidian training on Communications Management, each participant will gain an understanding/knowledge of Communications Management techniques and methods to improve communication effectiveness and team cohesion. The desired outcome of the training is to enable better communication through different mediums that improves efficiency and understanding, and a sharing of knowledge gained to subordinates, peers, and throughout cross functional work teams.
