Learn more about our solution for Supervisory Training And Development Training: **INVEST | EMPOWER | DELIVER.**

Training Category

Leadership & Management: Leadership is perhaps the most important buzzword in an organization. What is leadership and who is a leader? What are the qualities a leader possesses? What roles does a professional perform as a leader? Does just holding a certain designation make a person a leader? These are just some of the questions you will find answers to at our leadership training courses. Leadership & management training focuses on the attitude, actions and skills participants need to sustain an organization's effectiveness. Our trainers, coaches, and facilitators familiarize participants with the central qualities of existing or potential leadership among teams and create a safe environment for participants to engage and exhibit leadership.

Expected Training Outcome

Through ProSidian training on Leadership & Management, each participant will gain an understanding/knowledge of Supervisory Training and Development topics which can be applied to their working environment. The desired outcome is the achievement of a skill by the participant that improves supervisory effectiveness leading to improved morale, productivity, team cohesion, and leadership.
